### November sales growth supports view of Company's fourth quarter sales and earnings expectations

REYNOLDSBURG, Ohio, Nov. 29, 2023 (GLOBE NEWSWIRE) -- Victoria's Secret & Co. ("Victoria's Secret" or the "Company") (NYSE: VSCO) today reported 2023 financial results for the third quarter ended October 28, 2023.

Chief Executive Officer Martin Waters commented on the third quarter, "We delivered third quarter results within our guidance range, and we are encouraged by the improving sales trend as we transition into the all-important holiday season. Our sales trend in North America continued to improve as planned each month throughout the third quarter with October being our strongest month. Our teams have been resiliently focused on what is within our control and working tirelessly on multiple growth initiatives designed to create momentum. We are delivering key initiatives such as our new multi-tender loyalty program, new customer experience enhancements in our digital business, product improvements and launches to enhance the Victoria's Secret brand and accelerate our beauty business, a reimagined merchandise strategy for our PINK brand, and the return of our iconic fashion show with the Victoria's Secret World Tour '23."

Martin continued, "We are excited with early holiday sales trends in November in North America both in our stores and through our digital experiences online. The November sales and margin result was our best monthly performance in nearly two years and further evidence our initiatives are working, led by strong response to our holiday, giftable merchandise assortment; improving customer experiences; and a powerful marketing message with Mariah Carey, the voice of Christmas. Outside of North America, our business also has momentum, our footprint is growing both in stores and online, our partners are performing very well, and we continue to be excited about performance in China."

Martin concluded, "With the long-term health of the business in mind, we are energized by the positive signs in the business and remain committed to our strategic priorities: 1) Accelerate Our Core; 2) Ignite Growth; and 3) Transform the Foundation. At our Investor Day in October, we discussed our key focus on accelerating our core, and our initiatives designed to leverage our market leadership position and unlock our opportunity to convert our significant cultural influence into long-term financial growth. We believe our evolving strategies will position the business to deliver the potential of our category-defining Victoria's Secret and PINK brands, and I believe we have the right leadership team in place at the right time for our business to be successful. We remain confident in our brand repositioning efforts and are committed to delivering our long-term financial targets and returning value to our shareholders."

### Third Quarter Results

The Company reported a net loss of \$71 million, or \$0.92 per diluted share for the third quarter of 2023. This result compares to net income of \$24 million, or \$0.29 per diluted share for the third quarter of 2022. Third quarter 2023 operating loss was \$67 million compared to operating income of \$43 million in the third quarter of 2022.

Excluding the impact of the items described at the conclusion of this press release, third quarter 2023 adjusted net loss was \$66 million, or \$0.86 per diluted share, and adjusted operating loss was \$60 million. These results were within the previously communicated guidance range for adjusted net loss of \$0.70 to \$0.90 per diluted share and adjusted operating loss of \$45 million to \$65 million. Third quarter 2022 net income was \$24 million, or \$0.29 per diluted share, and operating income was \$43 million.

The Company reported net sales of \$1.265 billion for the third quarter of 2023, a decrease of 4% compared to net sales of \$1.318 billion in the prior year third quarter and at the midpoint of our previously communicated guidance range of a net sales decline of 3% to 5%. Total comparable sales for the third quarter of 2023 decreased 7% compared to the third quarter of 2022.

Adjusted net income (loss) and adjusted operating income (loss) are non-GAAP financial measures. At the conclusion of this press release, we have included more information regarding these non-GAAP financial measures, including a reconciliation of each non-GAAP financial measure to the most directly comparable financial measure reported in accordance with GAAP.

### Fourth Quarter and Full Year 2023 Outlook

The Company is forecasting fourth quarter 2023 net sales to increase in the range of 2% to 4% compared to last year's fourth quarter net sales of \$2.021 billion. At this forecasted level of sales, adjusted operating income for the fourth quarter of 2023 is expected to be in the range of \$245 million to \$285 million. Adjusted net income for the fourth quarter of 2023 is estimated to be in the range of \$2.20 to \$2.60 per diluted share.

The Company is forecasting full year 2023 net sales to decrease in the range of 2% to 3% compared to last year. At this forecasted level of sales, adjusted operating income for the year is expected to be in the range of \$290 million to \$330 million. Adjusted net income for the full year 2023 is estimated to be in the range of \$1.85 to \$2.25 per diluted share.

Forecasted adjusted operating income and adjusted net income per diluted share for the full year and fourth quarter 2023 excludes the financial impact of purchase accounting items related to the Adore Me acquisition, including recognition in gross profit of purchase accounting fair value adjustments to acquired inventories as it is sold and expense (income) related to changes in the estimated fair value of contingent consideration and performance-based payments, as well as the amortization of intangible assets. The Company is not able to provide a reconciliation of forward-looking adjusted operating income or adjusted net income per diluted share to the most directly comparable forward-looking GAAP financial measures because the Company is unable to provide a meaningful or accurate reconciliation or estimation of certain reconciling items without unreasonable effort, due to the inherent difficulty in forecasting the timing of, and quantifying, the various purchase accounting items that are necessary for such reconciliation.

**VICTORIA'S SECRET & CO.**  
**NON-GAAP FINANCIAL INFORMATION**  
**(Unaudited)**  
**(In thousands except per share amounts)**

In addition to our results provided in accordance with GAAP above and throughout this press release, provided below are non-GAAP financial measures that present operating income (loss), net income (loss) attributable to Victoria's Secret & Co. and net income (loss) per diluted share attributable to Victoria's Secret & Co. on an adjusted basis, which remove certain special items. We believe that these special items are not indicative of our ongoing operations due to their size and nature. The intangible asset amortization excluded from these non-GAAP financial measures is excluded because the amortization, unlike the related revenue, is not affected by operations of any particular period unless an intangible asset becomes impaired or the estimated useful life of an intangible asset is revised. We use adjusted financial information as key performance measures of results of operations for the purpose of evaluating performance internally. These non-GAAP measurements are not intended to replace the presentation of our financial results in accordance with GAAP. Instead, we believe that the presentation of adjusted financial information provides additional information to investors to facilitate the comparison of past and present operations. Further, our definition of adjusted financial information may differ from similarly titled measures used by other companies. The table below reconciles the GAAP financial measures to the non-GAAP financial measures.
